Continuing to enhance user experience

With nearly 30 years of clinical application experience, BLUEBELL has strived to become a more convenient and high-quality artificial teeth product.

Natural appearance and easy to use

- >> Two-layer design for both anterior and posterior moulds
- >> Familiar and classic moulds make it much easier for setting the denture
- >> Teeth cabinet available for supply, reduce management cost
- >> Patented no wax tooth card, easy to use

Performance Features

As an influential and popular tooth in the world, BLUEBELL is produced by high-quality raw material and advanced technology.

High-performance material and advanced technology

- PMMA anterior moulds and DCL posterior moulds
- Minimum water absorption and better wear-resistance
- Uneasy to be out of shape and colored after processed
- Multiple thermal press molding technology

Artificial Denture Teeth**

Focus on aesthetics, function and performance.

Moulds

- >> 14 upper anterior moulds
- >> 11 lower anterior moulds
- >> 16 posterior moulds

Shades

- >> Classical 16 A-D

Packaging

- >> Anterior: 6x1x16/Box (6 pcs/card, 16 cards/box)
- >> Posterior: 8x1x12/Box (8 pcs/card, 12 cards/box)
- >> Full set: 28x1/Box (1 full set)

HUGE Digitalife™ Denture Solution

HUGE Digitalife™ is our state-of-the-art Digital Denture Design Concept. It features the harmonious integration of base and denture teeth.

We've now made our entire range of tooth libraries available for 3Shape and exocad. With our functional designs and aesthetically pleasing results, we hope both your professional team and your patients will appreciate the quality of dentures made from digitally fabricated bases and prefabricated teeth.
